BY MARK TWAIN. Samuel McFadden was a watchman in a bank. He was poor, but honest, and his life was without reproach. The trouble with him was that he felt that he was not appreciated. His salary was only four dollars a week, and when he asked to have it raised, the president, cashier and the board of directors glared at him through their spectacles, and frowned on him, and told him to go out and stop his insolence, when he knew business was dull, and the bank could not meet its expenses now, let alone lavishing one dollar on such a miserable worm as Samuel Me-Fadden. And then Samuel McFadden felt depressed, sad, and the haughty scorn of the president and cashier ent him to the soul. He would often go into the side-yard and bow his venerable twenty-four inch head, and weep gallons and gallons of tears over his
